What are my intentions and lesson usefull after WCTOH Congress 2018

My goal after WCTOH congress will be to strengthen the ERS collaboration with all European stakeholders involved in tobacco control for Framework Convention on Tobacco Control (FCTC) implementation in Europe. My focus will be also on FCTC Art. 14 implementation (*effective measures to promote cessation of tobacco use and adequate treatment for tobacco dependence*).As member of European Network for Smoking and Tobacco Prevention (ENSP)'s, I am committed to apply the Memorandum of Understanding (MoU) signed between ERS and ENSP in 2016. I think that now is a good time for the European East and Central countries to collaborate with ERS Tobacco Control Committee ,IUATLD and tabacology sections of the professional societies to strength the Tobacco Control in Europe and worldwide. All the knowledge obtained after South Africa Congress can be use full in this direction.
